

STEM Engagement Partners

Achieve your STEM goals by partnering with Aberdeen Science Centre. Engage with children and young people from across north east Scotland and provide them with a unique, hands-on STEM learning experience.

Aberdeen Science Centre delivers established schools, community and public engagement programmes and by becoming a STEM Engagement Partner, you gain meaningful opportunity to inspire the next generation while supporting greater access to STEM learning.

Increase

knowledge
and skills

Greater access
to STEM learning
opportunities
outside the
classroom.

Greater
confidence in
engaging with
STEM subjects

Increase
aspirations for
more STEM
learning and
careers in STEM

Schools Engagement

Our Schools Programme engages pupils from Aberdeen, Aberdeenshire and Moray. A class visit includes a 40-minute workshop from our STEM Learning Programme plus time to explore over 60 interactive exhibits.

Your sponsorship enables pupils to visit free of charge. Many schools face an additional barrier to engagement due to transport costs; you can enhance your sponsorship with a transport top-up to remove this barrier.

Community Engagement

Our Community Programme priorities engaging people from underserved or underrepresented communities including people living in deprived or rural areas, people with disabilities and/or additional support needs, and groups underrepresented in STEM (including ethnic minorities and woman and girls).

Each two-hour session includes a workshop alongside interactive activities and exhibit exploration, creating accessible and inclusive learning experiences.

Public Engagement

Aberdeen Science Centre welcomes over 60,000 visitors each year. Our public programme delivers new workshops, shows, activities and story sessions every 8 to 12 weeks, encouraging repeat visits and broadening engagement across diverse STEM topics.

Your support can enable free access for visitors, breaking down financial barriers while increasing your brand visibility. This also provides opportunities for your staff to engage directly with children and families.

STEM Engagement Partner Packages 2026/27

Today's curious children are tomorrow's leaders in science and innovation. You can provide the spark that ignites their interest in STEM.

Achieve your goals by partnering with Aberdeen Science Centre and engaging with children and young people from across north east Scotland and provide them with a unique, hands-on STEM learning experience.
